Transplantation

Dear Colleagues!

Successful transplantation of animal organs would revolutionise medicine in general. Recent studies on pig hearts and kidneys have rekindled enthusiasm for this vision. Therefore this year's Transplant Forum Symposium is dedicated entirely to the topic of 'Xenotransplantation'. Four distinguished international leaders in the field will present their latest research and will discuss the future of medicine and how Xenotransplantation can contribute to it.

We cordially invite you to participate in this event at the MedUni Vienna and look forward to seeing you on 4th April!

Thomas Wekerle

Rainer Oberbauer

Thursday, 4th April 2024

2.00 – 3.15 pm

Welcome

Michaela Fritz, Vice Rector for Research and Innovation, Medical University of Vienna

Kidney

Robert Montgomery, NYU Langone Transplant Institute, New York
Alexandre Loupy, Necker Hospital, Paris

3.15 – 3.45 pm

Break

3.45 – 5.00 pm

Heart

Bartley Griffith, University of Maryland, School of Medicine, Baltimore
Eckhard Wolf, Ludwig-Maximilians-Universität München

Ethics

Christiane Druml, UNESCO Chair on Bioethics, Medical University of Vienna

Panel Discussion

Hörsaalzentrum (Lecture Hall), Hörsaal 5
Medical University of Vienna, University Hospital Vienna
Waehringerguertel 18-20, 1090 Vienna

With the kind support of

Annual Transplant Forum Symposium Xenotransplantation
